Alisa Hoys

Software Developer
Hungary

Summary

I'm a Software Developer working as a Scraping Engineer at GroupBWT, where I develop and maintain web scraping workflows and work with distributed systems using Python, Scrapy, RabbitMQ, MySQL, and Docker.

Experience

GroupBWT
Software Developer
August 2026 - Present (3 months)

Python Developer
February 2026 - September 2026 (8 months)

Developed and deployed a Django web platform for sharing and voting on programming-related opinions. Implemented authentication, email registration, tagging, AI-generated avatars, PostgreSQL integration, and automated testing.
Collaborated in a team on a Car Rental Service REST API project using Django REST Framework (DRF), contributing CRUD operations, filtering functionality, API testing, and database integration.

Hands on Games
Technical Content Creator
January 2022 - January 2024 (2 years 1 month)
Israel

Created educational and promotional content focused on Unity and C#.

Wrote instructional materials for 30+ Unity and C# lessons, translating programming concepts into structured learning content for students.

"Ahuzat Bayit" - Virtual Reality Project (Directed by Adam Horowitz)
Research Assistant
March 2023 - August 2023 (6 months)
Tel Aviv District, Israel

Conducted visual and historical research that supported the authentic representation of cultural narratives within an immersive VR experience.
Represented the project at conferences to support investor outreach and partnership opportunities.
Coordinated collaboration with a 3D artist, helping manage creative tasks and maintain project workflow.

A Tech / Anastasia Technologies
Video Editor
February 2019 - December 2022 (3 years 11 months)
Tel Aviv District, Israel

Education

Shenkar - Engineering. Design. Art.
M.Des, Computer Games and Programming Skills · (October 2021 - February 2024)

Tel Aviv University
Bachelor of Arts - BA, Film/Cinema/Video Studies · (October 2018 - October 2021)

Mate academy
Python Developer · (March 2026 - July 2026)
